

ELECTRICAL SAFETY RECALL

IMPACTED MODEL IDENTIFICATION GUIDE

MAXIM 231980

Recliner, 2 Seater, 3 Seater, 4 Seater

IDENTIFICATION

Please use the following guide to identify if your product is impacted

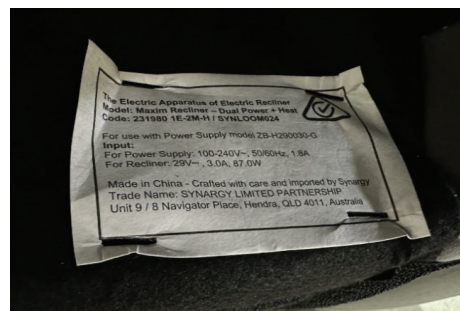

1. To identify if you have an impacted Maxim recliner or sofa, refer to your receipt for reference to Maxim recliner or sofa.
2. Visually compare your sofa to the images on the following pages. (Note: the upholstery and colours may be different.)
3. Check the rating label on your product:
 - Move to the rear of the recliner or sofa.
 - Lift up the seat back flap nearest the power inlet.
 - Locate the rating label.

Compare the rating label to the information on the following pages. You are looking for the word Maxim or the number 231980.

the rating label on your product will look similar to the below

Lift the fabric seat back flap nearest the power inlet

If any information matches (receipt, visual appearance, rating label) please contact Synargy at heatpads@synargy.com for next steps.

If you are unsure if your product matches, please send us images of the information you do have to heatpads@synargy.com and we can assist with identifying.
