## FEATURES & BENEFITS

|                             |                                                                          |                                                                                                                                                                                                             |
|-----------------------------|--------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>CONSTRUCTION</b>         | Powder coated steel and legs                                             | The underlying frame is constructed from steel - providing strength, stability and peace of mind with a 5 year structural warranty                                                                          |
| <b>UPHOLSTERY</b>           | Polyurethane Upholstery                                                  | Finished in sleek polyurethane upholstery the chair is textured, soft to touch and easy to keep clean                                                                                                       |
| <b>MASSAGE PROGRAMS</b>     | 15 automatic massage programs                                            | Fifteen automatic operating programs mean there is a mode to suit everybody, no matter their massage preference                                                                                             |
| <b>AIRBAGS</b>              | 2 Airbags                                                                | Airbags at either side of the waist provide a gentle and soothing pressure to enhance your massage experience                                                                                               |
| <b>MASSAGE RAIL LENGTH</b>  | 120cm massage rail                                                       | The massage guide rail fits ergonomically with the human body - allowing the rollers to perform realistic massage techniques along the full length of the users back                                        |
| <b>ZERO GRAVITY RECLINE</b> | Zero gravity recline function                                            | The zero gravity (horizontal) recline position enhances the massage experience by evenly distributing weight and creating a feeling of weightlessness. Find your favourite setting with 3 levels of recline |
| <b>BLUETOOTH SPEAKERS</b>   | Bluetooth audio speaker system                                           | Kick back with your favourite music, meditation guides, or podcasts while you enjoy a relaxing massage                                                                                                      |
| <b>ADJUSTABLE FOOTREST</b>  | Adjustable height footrest                                               | Put your feet up and relax with the gas-lever adjustable height footrest. With matching upholstery, the footrest adds style as well as functionality                                                        |
| <b>USB OUTLET</b>           | Keep your smartphone nearby and fully charged with the embedded USB port | USB type-A outlet in the right hand control panel allows you to keep devices charged, and the upholstered storage pocket keeps it within easy reach                                                         |
| <b>WIRELESS REMOTE</b>      | Battery powered wireless remote control                                  | Control all essential functions with the wireless remote control, which also has its own space in the upholstered storage pocket                                                                            |
